EDITORIAL

It is a great pleasure to welcome you to the “world” of Journal of Geomatics and Environmental Research (JOGER) a publication of the department of Surveying and Geoinformatics, University of Ilorin, Ilorin, Kwara State, Nigeria. This is the third edition of the journal, precisely Volume 3 Number 2. In this issue, you will find research and contributions that would be of great benefit.

This issue presents articles in the areas of Flooding and Flood Management, Remote Sensing and photogrammetry, geospatial mapping, Environmental design and architecture Climate change, and real estate.

The studies captured are the Assessment of temporal variation of rainfall in the Adamawa catchment for preliminary flood vulnerability investigation, elimination of type ii errors in feature-based image matching: a comparative evaluation of geometric transformation methods, mapping clay and oxide-based rock minerals in the tropical rainforest using Landsat-8 oli, Crime prevention through environmental design (CPTED): the role of architecture, analysis of the perception of urban residents on the risk of climate change in the Ilorin metropolis and making a reliable, secure, and transparent digital real estate transaction in the 21st century: where are we now in Nigeria?

We look forward to receiving your articles in subsequent editions of the journal.

Thanks for publishing with *JOGER*.
